Subject: Organic Farms
Attachments: Minn Organic MITIGATION PLAN.docx

Roberta,

It appears that there could be some organic farms along the proposed and alternate routes for the Constitution Pipeline. I have been in contact with the Minnesota Department of Agriculture and they worked with a couple of pipeline companies to develop construction and restoration measures to prevent farms from losing their organic certification as a result of construction. I have attached a copy of the document for your information. I only included the portion of their mitigation plan that applies to organic farms, as the rest of their mitigation for agriculture is similar to NY's. At some point we will need to discuss the protection plans for organic farms.

Matt
