Subject: Laser Contact

Judy,
The Laser Midstream Pipeline that Williams has taken over and plans to parallel with a new pipeline is located in the Town of Windsor, Broome Co. NY. The Permit Manager for the project is Kristy Flavin and her cell phone number is (412) 925-5950.

Since the people working on that project will be going through the approval and construction before Constitution, they may be a good source of information on the permitting process with DEC and other State agencies. At the end of the project might be able to provide some information on "lessons learned."

Matt
