mile post 73.5 is where our home
is located. The proposed pipe line is to run through
our back lawn. The pipe line will be destroying the
apple trees and garden my husband planted
because the proposed pipeline is supposed to go
through the middle of them. The pipe line will

be in very close proximity to our home. Also the Septic System for home is located in this area. The way our neighbors are closely located, it makes it near impossible to have the pipeline run through here without being in some ones yard. My daughters dream is to build her home on this property, she has been saving to do so since she was 14 years old. If the pipeline runs through our area; her dream and the legacy of the land that our family has had for generations is ruined! Also we highly oppose to the chaos and destruction of the environment required to construct the pipeline in this area. The soil is largely rocky and will require explosive demolition to construct the pipeline through the mountain terrain. HOW would you feel living in the country; having what you've worked your entire life for dug up, noisy and destroyed!? Further more I feel our land is ~~his~~ of historical value. Over the years and as recent as a month ago, my husbands grandfather and myself; only a month ago, have found

Native american arrow and spear
heads in our yard. I feel like it
is disrespecting our heritage by
putting the pipeline here. If you have
any human decency and value of
culture and the environment you will
Stop the pipeline!

Thank you

Colorado Health
Medical Group

Cheyenne, WY 82009

Phone: 307.634.1311

June 30, 2012

Dear Patient,

Thank you for allowing the physicians at Cheyenne Medical Specialists to serve your health care needs.

Dr. Thabo Kenosi, our endocrinologist, recently announced his last day will be July 31.

Ensuring that his patients continue to receive quality medical care is our utmost concern.

We are actively recruiting a replacement for Dr. Kenosi and hope that person will be able to join our team soon.

Until then, we encourage you to coordinate your care through your primary care physician.

If you need care from a specialist during this transition, we are confident you'll be in good hands with one of our endocrinology colleagues at Colorado Health Medical Group's Medical Clinic at Centerra. The clinic is located near the intersection of Interstate 25 and U.S. 34 in Loveland, Colo. To schedule an appointment, call 970.224.3636.

Unless you request a transfer, your patient records will remain at Cheyenne Medical Specialists and continue to be kept confidential. If you choose to receive care at a different location, a copy of your medical record will be forwarded to your new provider upon receipt of a written, signed authorization from you. If you have any questions or concerns, please contact our office at 307.634.1311.

Thank you again for the privilege of meeting your health care needs. We wish you and your family the best in your pursuit of a healthy life.

Sincerely,

Cheyenne Medical Specialists
