Charlie,

I'm writing to facilitate coordination on for field visits on 8/21; however, since I won't be able to attend coordination from this point on should be with Judy Neason & John Zimmer.

I'm thinking that if you arrive in Albany around noon it might be easiest if you, Kevin, Doug, and Lavinia meet up with Judy and John somewhere near the Albany airport. John will have some maps with him, but it would be helpful if you guys could also bring the mapping that I had given to Kevin when we did our first round of site visits in July. Since we haven't heard back on any specific sites you would like to see, we will plan to move forward with a windshield tour.

Matt Brower (Dept. of Agriculture & Markets) has expressed interest in tagging along at the site visits and has also confirmed he will attend the interagency meeting on 8/22.

Please let us know your thoughts so we can coordinate further with Matt.

Cell phone contact info for Judy & John is provided below:

Judy Neason: 202.258.2482

John Zimmer: 978.697.0854

Thanks,

Roberta
